

# STANDING IN THE SHOULDER OF GIANTS

## A TWO DAY GUIDED HIKING TOUR TO THE HEART OF PICOS DE EUROPA

(July 12 th and 13 th)

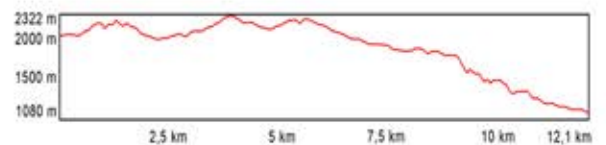

### DAY 1

We leave Fuente De through an easy and gentle uphill track which goes around the south face of the central massif of Picos de Europa, until we reach Canal de Pedabejo. From the top of this pass we'll contemplate la Vega de Liordes and its green alpine meadows well surrounded by grey raised limestone towers. From this point and after following an easy path we'll reach Collado Jermoso, well known as the most beautiful mountain shelter of Picos de Europa, built in a really breath taking place, an authentic eagle's nest.

### DAY 2

This second day trek will let us take a gaze to la Vega de Liordes from the heights of its north side. This is an impressive valley created by the action of glaciers several thousand years ago. It's also the place where traditional mining activity took place. On the way back to the starting point we'll have time to ascend la Padiorna. An easy climb and one of the main peaks in this area which raises over the green lower meadows. After that, we'll take the cable car straight down to Fuente Dé.

**PRICE PER PERSON: 260 €**
