

## THE OLD LADY FROM PICOS

### A TWO DAY GUIDED HIKING TOUR TO THE HEART OF PICOS DE EUROPA

(September 12 th and 13 th)

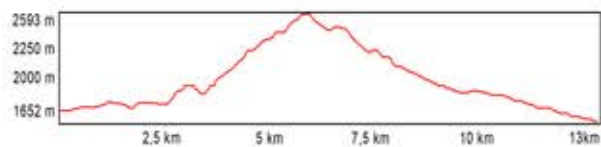

#### DAY 1

Departing from the green alpine meadows of Puertos de Áliva, where the hotel is located, we'll follow the main track through Canal de San Luís all the way up to Tiro Casares, a small and impressive mountain pass surrounded by limestone walls. From there, a labyrinthine trail leads to Cabaña Verónica, a small shelter built in the 60's from the dome of the barrel of a navy destroyer. After that, an easy downhill walk under the south face walls of Peña Olvidada and Peña Vieja will take us straight back to the hotel.

#### DAY 2

The next morning and after a relaxing stay in the hotel, our objective is on sight, well above us: Peña Vieja, one of the most renowned and classic ascents on Picos de Europa. The route we'll follow through Canal del Vidrio is a really beautiful old track with lots of interesting mining vestiges where we'll find no people, quite the opposite if we take the regular ascent route.

**PRICE PER PERSON: 290 €**
