

## THE ICE AGES

### A TWO DAY GUIDED HIKING TOUR TO THE HEART OF PICOS DE EUROPA

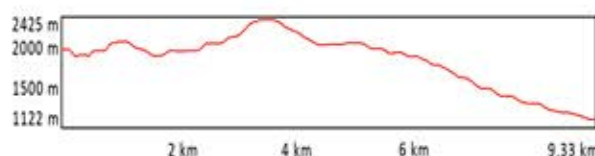

#### DAY 1

Departing from Fuente Dé, we take the first cable car in the morning to ascend almost 1000 m in just three minutes. Now it's when our trek starts, following the main track under Peña Olvidada south slopes along the normal route to Peña Vieja. Once on top of the Canalona pass, we left Peña Vieja to the right to traverse straight to the most beautiful and narrow pass in the whole Picos de Europa: Collada Bonita. From here, we have the best view of the south face of Picu Urriellu, also called Naranjo de Bulnes, where we'll reach the shelter under its impressive west face.

#### DAY 2

Being recovered from yesterday's trek after a night at Urriellu's shelter, we'll climb to the top of Peña Castil. In the way down, there's one of the most impressive places in the Picos de Europa: Peña Castil's fossilized ice cave, a legacy from a much colder age thousands of years ago. After that, we'll head down to reach Collado Pandébano, where a taxi will be waiting for us, and the place where our tour comes to an end.

**PRICE PER PERSON: 290 €**

INCLUDES: GUIDED ROUTE WITH 2 CERTIFIED LOCAL MOUNTAIN GUIDES, OVERNIGHT STAY, MEALS, CABLE CAR TICKETS, MOUNTAIN TAXI, PICOS DE EUROPA MAP, CIVIL LIABILITY AND ACCIDENT INSURANCES.
